

Newsletter Inclusive Evolution 2023

November-December 2023

As we embrace the final months of 2023, we are delighted to share the latest developments from our Inclusive Evolution 2023 project. November and December have been marked by dynamic mobilities and activities that have allowed us to continue the dissemination of our project's impactful results.

Project Horizons Training Course: Our journey continued with the Project Horizons Training Course, where we seized the opportunity to showcase the InEvo 2023 project results and disseminate our objectives. This event served as a platform to exchange ideas and insights on non-formal and informal learning methods tailored to the needs of visually impaired youngsters.

One important objectives of the Inclusive Evolution 2023 project is strengthening youth work across Europe through an international cross-sectorial network, promoting good practices in non-formal and informal learning, interpersonal communication, digital competences, independent and healthy lifestyles, employability, and entrepreneurship.

ABT's Projects Dissemination Event: At a general dissemination event of ABT's projects, we took pride in presenting the achievements of the Inclusive Evolution 2023 project. This gathering provided a broader audience with a glimpse into our commitment to fostering inclusion, promoting confidence, and empowering young individuals.

Inclusive Decisions Project International

Mobility - Study Visit: In the heart of Brussels, Belgium, our international mobility study visit under the Inclusive Decisions project allowed us to extend the reach of InEvo 2023. We shared our experiences and explored avenues for collaboration with professionals, organizations, and stakeholders, decision makers in the field of youth and social inclusion and EU decision makers.

As we approach the final chapter of the Inclusive Evolution 2023 project, December becomes a crucial period for reflection and evaluation. This month is dedicated to assessing the collective impact of our efforts and preparing for the comprehensive final report. The main objectives include reflecting on achievements, evaluating impact, assessing individual activities, and initiating preparations for the final project report. This assessment aims to measure tangible outcomes and the broader influence on the target groups, stakeholders, and the community.

Our goal is to prepare a final report that encapsulates the entire project, outlining achievements, challenges, lessons learned, and insights from stakeholders. We express gratitude to all who have contributed to the success of Inclusive Evolution 2023 and look forward to sharing the comprehensive insights gained during this evaluation process.

This project has been more than a series of activities. It has been a shared commitment to inclusivity, innovation, and positive change. As we prepare to bid farewell to Inclusive Evolution 2023, let's carry forward the spirit of collaboration, learning, and empowerment into the next chapters of our individual and collective journeys.

Thank you to each participant, partner, and supporter who has played a role in making this project a success. Your contributions have left an indelible mark, and we look forward to carrying the lessons and connections forged during this project into future endeavors.

With gratitude and excitement for what lies ahead,

Babilon Travel NGO

Thank You...
